About Company

Ethmar Construction and Contracting Company is a national firm established in 2009 under the name of Thamer Salman Suleim Al-Saadi Contracting Establishment. In 2020, the company transformed into a joint-stock company. Since its inception the company has specialized in a diverse range of contracting activities, including building construction, road and tunnel construction, bridges, landscaping, site organization electrical and mechanical works, and other general contracting services We have successfully executed numerous projects in collaboration with government ministries and authorities Throughout our professional journey, we always stand ready to undertake and complete projects to the highest standards ensuring precision quality, and on-time delivery. Our integrated team comprises qualified engineers supervisors, technicians experts, skilled laborers, and administrative personnel Our company's ambition is to enhance performance efficiency and contribute to the growth of the contracting sector while promoting construction and development operations.

Our vision

To become the leading and distinguished company in the contracting sector, by providing high-quality services and excellence in all aspects of our work. We aim to be a key contributor to the development and progress of the Kingdom of Saudi Arabia, proudly contributing to the realization of Vision 2030

Our mission

At Ethmar Construction and Contracting, we are committed to delivering the highest levels of quality and professionalism in all our projects. We strive for leadership and excellence in the contracting sector by offering superior and innovative services, achieved through employing the most qualified talents and utilizing the latest technologies. We believe in the importance of social and environmental responsibility and seek to build strong partnerships with clients and collaborators to achieve sustainable success in alignment with the vision of Saudi Arabia 2030. Additionally, we aspire to present a pioneering model for national companies to support the journey of construction and development, adhering to the highest standards to enhance and increase local content.

Our Goals

We aspire to actively contribute to the construction and development of the Kingdom of Saudi Arabia in line with the Vision 2030. This is achieved through establishing a creative environment that fosters exceptional capabilities and high-quality specialized expertise. We are committed to supporting and enhancing national experiences, and we continually encourage the promotion of the job market with the required local talents and skills.

Chairman of the Board's word

The strategic vision has been carefully crafted for us to become pioneers in the field of contracting, where, God willing, we meet the aspirations of the Kingdom of Saudi Arabia and its Vision for 2030. We have noticed that our continued success is primarily due to the grace of God Almighty, then to the joint efforts of all those who work with us in various activities of our company, and their shared sense of responsibility. This success has been further enhanced by strong strategic relationships built on honesty, loyalty, and high professionalism in executing our projects. We have particularly focused on the development and training of key national talents, enabling them to take on responsibilities in our field of work. We take pride in localizing high levels of employment and continually strive to increase this ratio to support our economy and enhance our nation as a whole. We are committed to directing our energies and efforts in all areas that serve the economic and social communities to achieve the Kingdom's Vision for 2030.

Workforce

Our company boasts a vast team of exceptional talents and experiences, including managers, engineers technicians, and highly qualified laborers. We place great importance on the comfort and safety of our employees and consistently adhere to occupational health and safety procedures across all our sites. They are considered the core of our success and prosperity. Therefore, all company employees enjoy a comfortable and safe working environment, complete with appropriate benefits and rights, including housing, healthcare transportation, and other services. We are continually working on enhancing the skills and competencies of our team through training and development opportunities tailored to each individual's specialization.

Health safety and environment

01

At ETH MAR, we provide frequent training to all employees that relate to emotional, physical, and mental well-being. Furthermore, on-site measures like protective equipment, regular inspections, identifying & eliminating unsafe working conditions and practices facilitate a safe workplace for our workforce.

02

Our ongoing training on safety procedures, personal conduct, safety discipline accident reporting, personal protection, attention to tools & equipment, and first aid best practices help us to maintain a professional and safe working environment. At ETH MAR, workplace safety is obligatory, and providing the right conditions and procedures for our workers will always be an essential aspect of our company culture.

03

That's why we strive to further develop, improve and refine the working conditions of our workers and make as a role-model for the safe operation of job sites and is known as a reliable and trustworthy construction company by benchmark setters for the construction industry.

Quality Statement

01

According to our promise of excellence, ETH MAR always performs at peak levels to ensure that we meet all quality standards set by our clients. For us, our work's quality has to speak for itself and show in all matters of construction, fabrication, materials procurement, and finishing that we prove do for our clients.

02

We are committed to providing only the highest quality projects, products and services to our clients and stakeholders by adhering to our Integrated Management System (IMS).

03

With our quality control program (construction phase), we make sure that all construction activities are performed in complete conformance with the construction requirements and cater to all applicable standards specifications, and technical requirements of the project.

04

Our delegated quality control managers are directly responsible for ensuring that all clients and project requirements are strictly adhered to. Quality management procedure is binding and followed without deviation by all ETH MAR employees and our subcontractors.
